Who We Are

Pioneering Progress, Together

Kene Technologies was founded on the belief that technology, when wielded with precision and creativity, can solve the world's most complex challenges and unlock unprecedented opportunities. We are more than just a technology company; we are architects of innovation, partners in growth, and advocates for a future where technology empowers everyone.

Our journey is defined by a relentless pursuit of excellence, a commitment to our core values, and a deep understanding of the industries we serve. We specialize in crafting bespoke solutions that are not only cutting-edge but also practical, scalable, and impactful.

OUR VISION

To be a global leader in transformative technology solutions, empowering businesses and communities to thrive in a dynamic digital future.

OUR MISSION

To deliver innovative, precise, and reliable technology products and services that solve complex challenges, drive sustainable growth for our clients, and contribute positively to society through ethical practices and a commitment to excellence.

Why Kene

We combine technical excellence with deep understanding of local needs to deliver solutions that truly make a difference.

Human-Centered Design

We build technology that serves people first - solving real problems and improving daily lives, not just chasing trends.

Rooted in Community

Our solutions honor traditional practices while modernizing them - like digitizing Equb savings for the next generation.

Accessible Innovation

Technology should empower everyone. We design inclusive solutions that bridge gaps and create opportunities.

Local Problems, Lasting Solutions

We deeply understand the challenges faced by our communities and build tools that make a meaningful difference.

Products

KASM - Apartment Sales Management

PRODUCTIVITY · PRE-LAUNCH

Bridging trust between apartment buyers and developers.

Kene Apartment Sales Management (KASM) connects apartment buyers with trusted real estate developers. Purchase apartments at lower rates during construction, pay in installments, and track progress through the system. Developers can raise early financing while remaining transparent to buyers through verified progress reports. KASM helps tackle the cloud of mistrust between buyers and developers.

Verified Progress Reports · Secure Installment Payments · Transparent Developer Profiles

KeneMenged (App)

TRANSPORT · UNDER DEVELOPMENT

Smart urban mobility at your fingertips.

KeneMenged is an intelligent transport management app designed to optimize routes, track vehicles in real-time, and enhance the commuting experience for passengers and operators alike.

Real-time GPS Tracking · Optimized Route Algorithms · Reduced Wait Times

Shekem (App)

TRANSPORT · UNDER DEVELOPMENT

Efficient logistics and cargo management.

Shekem streamlines logistics operations, offering a robust platform for cargo tracking, fleet management, and delivery coordination. Enhance efficiency and transparency in your supply chain.

End-to-End Cargo Visibility · Improved Delivery Times · Reduced Operational Costs

KeneKulf - Password Manager

PRODUCTIVITY · UNDER DEVELOPMENT

Secure your digital life with ease.

KeneKulf is a robust and user-friendly password manager that helps you generate, store, and manage your passwords securely across all your devices. Say goodbye to forgotten passwords and weak credentials.

Military-Grade Encryption · Cross-Platform Sync · Breach Monitoring

KeneSera - Work Platform

PRODUCTIVITY · UNDER DEVELOPMENT

Empowering teams to collaborate and achieve more.

KeneSera is an integrated work platform designed to enhance team productivity through seamless communication, project management, and task organization. Streamline workflows and foster collaboration.

Increased Team Efficiency · Centralized Project Tracking · Improved Communication

KeneAstemari - Learning Platform

PRODUCTIVITY · UNDER DEVELOPMENT

Personalized AI-driven learning experiences.

KeneAstemari is an innovative AI-based learning platform that offers personalized educational content, adaptive learning paths, and engaging tools to empower learners of all ages.

Adaptive Learning Paths · Higher Engagement Rates · Personalized Content Delivery

KeneEqub (Web)

FINTECH · PRE-LAUNCH

Revolutionizing traditional savings with modern technology.

KeneEqub digitizes the traditional Ethiopian Equb system, offering a secure, transparent, and efficient platform for group savings and lending. Manage contributions, track payouts, and foster community finance with ease.

99.9% Uptime · 256-bit Encryption · Seamless Payouts

AR Hunt

GAMES · BETA TESTING

Explore your city in augmented reality and solve trivia to collect treasure.

AR Hunt is a city-wide scavenger hunt played through your phone camera. Coins, diamonds, secret doors, puzzles and targets are placed on real walls, floors and counters. Find a scene on the map or join one with a code, answer a timed question to claim each item, and build your hoard. Now in beta testing on Android.

Treasure hunts in real places · Trivia, puzzles and live games · English and Amharic

KeneDue

PRODUCTIVITY · BETA TESTING

Never miss a due date again.

KeneDue keeps track of bills, renewals, licences, meetings, tasks and income, and reminds the right person before each one is due. It works in both the Ethiopian and Gregorian calendars, in English and Amharic, for individuals, families and organizations. Now in beta testing.

Ethiopian and Gregorian calendars · Reminders by email, push and Telegram · Works offline

Services

Software Solutions

CUSTOM DEVELOPMENT

Custom-built software to power your vision.

We design and develop bespoke software applications, from web and mobile apps to complex enterprise systems, tailored to your specific business needs and objectives.

Agile Development Cycles · Scalable Architectures · User-Centric Design

Technology Consultancy

STRATEGIC ADVISORY

Expert guidance for your digital transformation journey.

Our experienced consultants provide strategic advice, technology roadmaps, and IT assessments to help you leverage technology effectively and achieve your business goals.

Actionable Insights · ROI-Focused Strategies · Vendor-Agnostic Advice

Staffing & Workforce Management

TALENT SOLUTIONS

Connecting you with top tech talent.

We provide flexible staffing solutions, from contract to permanent placements, helping you build high-performing tech teams quickly and efficiently. We also offer workforce management expertise.

Reduced Hiring Time · Access to Vetted Professionals · Improved Team Productivity

Smart Gadgets

INNOVATIVE HARDWARE

Innovative hardware for a connected world.

Explore our range of smart gadgets designed to enhance daily life and improve efficiency, from IoT devices to custom hardware solutions for specific industry needs.

Cutting-Edge Technology · Seamless Integration · User-Friendly Interfaces

Smart Buildings

INTELLIGENT INFRASTRUCTURE

Intelligent solutions for modern infrastructure.

We implement smart building technologies to optimize energy consumption, enhance security, and improve occupant comfort, creating sustainable and efficient environments.

Energy Savings · Enhanced Security Systems · Automated Building Management

Core Values

Innovation

We relentlessly pursue groundbreaking solutions and foster a culture of creativity to drive progress.

Precision

Excellence is in the details. We are committed to meticulous execution and delivering high-quality results.

Integrity

We operate with transparency, honesty, and ethical principles in all our interactions.

Customer Centricity

Our clients are at the heart of everything we do. We strive to understand their needs and exceed expectations.

Collaboration

We believe in the power of teamwork, both internally and with our partners, to achieve shared success.

How We Work

At Kene Technologies, we employ a flexible and adaptive methodology tailored to the unique needs of each project and client. Our approach integrates best practices from leading frameworks to ensure quality, timeliness, and optimal outcomes.

Agile Principles

We embrace Agile methodologies (such as Scrum and Kanban) for iterative development, continuous feedback, and rapid adaptation to changing requirements. This allows us to deliver value quickly and efficiently.

User-Centric Design

Our development process is deeply rooted in understanding user needs. We conduct thorough research and usability testing to create intuitive and impactful solutions.

Data-Driven Decisions

We leverage data analytics throughout the project lifecycle to inform strategy, measure progress, and optimize performance.

Quality Assurance

Rigorous testing and quality assurance protocols are integrated at every stage, from design to deployment, ensuring robust and reliable solutions.

Collaborative Partnership

We work closely with our clients as partners, maintaining transparent communication and involving them throughout the development process to ensure alignment and satisfaction.

How we are organised

Kene Technologies is structured to foster collaboration, efficiency, and innovation across all departments. Our model emphasizes clear lines of communication and accountability, empowering teams to deliver exceptional results.

- Executive Leadership Team: Setting strategic direction and overseeing operations.
- Departmental Units: Specialized teams for Technology, Product Development, Sales & Marketing, Operations, and Support.
- Project-Based Teams: Cross-functional groups assembled for specific client engagements or product initiatives.
- Research & Development Hub: Dedicated to exploring emerging technologies and future innovations.
